

Heavy-Duty Bench-top Mixers

New line of bench-top mixers ideal for everyday use within the ink room and laboratory

Heavy-Duty Bench-Top Mixer

Increasing its line of high quality mixers for UV inks, coatings and general use, UV Process Supply® introduces three new bench-top, space saving models for everyday use in the ink room and laboratory.

The **Heavy Duty Bench-top Mixer** is a three-speed, stainless steel agitator provides quick, consistent mixing of small ink and coating batches. Perfect for preparing test batches in the laboratory or ink mixing room. 1/6 hp motor automatically activates when container is positioned and stops immediately upon removal. Blade removes easily for quick, easy cleaning. Stabilizer arm and rubber grip feet prevent skidding and ensure balance. Complete with two agitators, base and spindle. 120v, 60 Hz. Weight: 10 lbs. Dimensions: 6.5 x 6.25 x 20". UL listed.

Professional Bench-Top Mixer

The **Professional Bench-top Mixer** is a 5-quart heavy-duty commercial mixer for mixing heavier viscosity ink and coating samples. Perfect for the higher volume lab or ink room. Includes thermal protection overload reset. Features stainless steel mixing bowl with splash/pour shield. Three mixing blades. Standard 115 VAC, 60 Hz, 350w. 3-wire grounded plug. White finish. Weight: 30 lbs.

The **Classic Bench-top Mixer** is a 4-1/2 quart commercial mixer for mixing ink and coating test samples. Perfect for the lab or ink room. Easy to clean. Complete with stainless steel bowl and three mixing blades. Standard 115 VAC, 60 Hz, 250w. 3-wire grounded plug. White finish. Weight: 26 lbs.
