

UV Starter Kit

Features our most popular UV safety and handling products for working with UV-curable inks, coatings and adhesives

To help companies reap the full benefits of their new UV curing systems, **UV Process Supply** has put together this unique kit to make the "start up" more effective. Each product in the **UV Starter Kit** has been tested for use within the UV curing process.

| Item No. | Description |
|----------|----------------|
| B000-001 | UV Starter Kit |

This kit features the following items (which are also sold separately):

UV BARRIER CREAM (1 Pint-#I002-003)
Protects the skin against UV material penetration. Water-based cream repels water insoluble materials.

UV HAND CLEANER (1 Gallon-#I001-001)
Apply to skin areas to dissolve UV inks, coatings and adhesives. Rinse with water and dry with a clean, absorbent, soft towel. Prevents skin drying.

UV SKIN LOTION (8 oz. #I002-001)
Modern skin conditioner, specifically designed for UV, replaces lost skin oils, and prevents cracking and drying of the skin. Contains a special additive to counteract irritation caused by most UV materials.

UV FILTER SAFETY GLASSES (Clear-#I005-021)
Special ultraviolet-absorbing lenses offer protection from hazardous shortwave ultraviolet radiation, while completely eliminating "blue haze" interference caused by long-wave ultraviolet radiation. Two sets.

SNAP-ON CONTAINERS [included in this kit are six pint (#J001-001), six quart (#J001-002), and three 1-gallon (#J001-007) containers] Polyethylene construction "breathes" to limit inhibit polymerization reaction and increase shelf stability. Black opaque finish prevents ambient light contamination.

11" WHITE PLASTIC SPATULAS (#J005-008)
Easy-to-clean spatulas will not be affected by UV formulations and most solvents found in the clean-up process. One dozen/box.

PRINTORK DISPOSABLE WIPERS (#J006-002)
This non-woven rayon is approximately four to five times more absorbent than cotton. Two 950 foot rolls per case.

PRINTORK DISPENSER [Wall Mount (#J006-003), Floor (#J006-004)]
Sturdy wall or floor model frames provide stability for reliable dispensing of Printork Disposable Wiper rolls.

UV Barrier Cream

UV Hand Cleaner

UV Skin Lotion

UV Filter Safety Glasses

Snap-on Containers

White Plastic Spatulas

UV Starter Kit

Features our most popular UV safety and handling products for working with UV-curable inks, coatings and adhesives

PrintTork Disposable Wipers

Printork Dispenser (Floor Model)

LAMP/REFLECTOR MAINTENANCE KIT (#A002-017)

Everything you need to clean UV lamps and reflectors: cleaning fluid; soft, lint-free wiping pads; cotton gloves and shop maintenance information.

INTENSITY LABELS (#N010-001)

Photochromic intensity labels undergo a color change which can be related to radiation dose. Low-cost, simple, in-house method of monitoring UV radiation.

SURGICAL-TYPE GLOVES (Medium - #I004-044)

Solvent-resistant latex surgical-type gloves are designed for short-term, one-time usage. Other sizes available. 100/box.

FLOCK-LINED GLOVES (Size 7- #I004-006)

18 mil solvent-resistant latex gloves allow for long-term use and dexterity. Durable flock lining keeps hands dry. Other sizes available. 1 dozen/box.

NT GLOVES (Size 7- #I004-027)

Non-slip nitrile is impervious to most solvents and ideal for long term exposure. Highly resistant to punctures. 1 dozen/box.

DISPOSABLE APRONS (#I003-001)

UV-tested, durable aprons have a full cut and high bib to provide neck to knee protection. 100/box.

DISPOSABLE LAB COATS (Medium - #I003-011)

Made of non-woven Tyvek, these disposable lab coats feature long sleeves, collar, full-cut and front snaps. Other sizes available. Two coats.

CLEAR UV FILTER SLEEVES (#F007-001)

These sleeves are flexible plastic filters designed to fit over standard fluorescent light tubes. No tools are required for their installation. Includes a UV inhibitor that will never wear out and never need replacement. Four sleeves included.

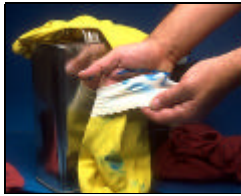

Lamp/Reflector Maintenance Kit

UV Intensity Labels

Latex Surgical-Type Gloves

Flock-Lined Gloves

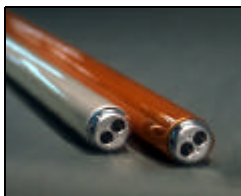

NT Gloves

Disposable Aprons

Disposable Lab Coats

Clear & Amber UV Filter Sleeves

Clean-Up Solvent #314

CLEAN UP SOLVENT #314 (5 gallons-#J011-002)

Ideal for removing UV materials, such as coatings, inks or adhesives from application equipment.
